

SEALING & BONDING SOLUTION FOR ELEVATOR INDUSTRY

www.bossproducts.in

ADHESIVE AND DAMPING SOLUTIONS FOR ELEVATORS

When structural bonding is required, BOSS offers a comprehensive range of high-performance adhesives and sealants designed for the entire elevator assembly process. Leading manufacturers trust BOSS solutions at every stage of cabin and door fabrication.

Panel Stiffener Bonding

Stiffener bonding

Recommended Product: Boss 236

Landing Door Bonding

- ✓ Window bonding and sealing
- ✓ Small part bonding

Recommended Product: Boss 236

Floor Components Sealing

Sealing of cabin floor elements

Recommended Product: Boss 388

Mirror Bonding

Bonding of cabin internal mirror

Recommended Product: Boss 236

Display Bonding

Bonding of displays and decorative panels

Recommended Product: Boss 236

Cable Penetration Sealing

Reliable fire protection for elevator cable penetrations

Recommended Product: Boss 813+

BOSS 388

Weather Neutral Sealant

BOSS 388 is a one-part, neutral-cure silicone sealant designed for long-lasting performance in external and internal construction joints. It bonds effortlessly to laminated uPVC profiles, coated aluminum, ACP, and glass—making it the ideal choice for modern facades and fenestration systems. Available in multiple colors.

Applications:

- ✓ BOSS 388 is ideally suited for weatherproofing, flooring and metal sealing of industrial application.
- ✓ BOSS 388 has excellent adhesion to , glass, glazed surfaces, concrete, galvanized steel, anodized aluminum, cement, wood, ceramics, painted surface and many plastics.

Properties:

Non-Corrosive

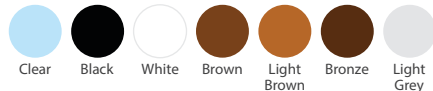

Neutral Cure

Waterproof

Available Color:

Packaging:

Available in 280ml cartridge

BOSS Rapid Fix Ultra

SMX Polymer

BOSS Rapid Fix Ultra is a high-tack SMX polymer adhesive designed for heavy-duty bonding and sealing, both indoors and outdoors. It delivers exceptional initial grab and durable bonding, suitable for porous, non-porous, wet and humid surfaces.

Applications:

- ✓ Bonding wooden door frames to concrete, brick, or stone surfaces.
- ✓ Mounting decorative panels (ACP, WPC, plywood) on door surfaces or surrounds.
- ✓ Fixing hardware or fittings on doors in bathrooms and kitchens.
- ✓ Sandwiching door frames between stone or cladding materials.
- ✓ Elastic bonding of door panels, trims, or profiles.

Properties:

Fast Cure

UV Resistant

Versatile Adhesive

Available Color:

White

Packaging:

Available in 480g cartridge

BOSS 236

Hybrid Adhesive

BOSS 236 is a premium, one-component, hybrid polymer-based adhesive sealant with very high initial tack. It is designed for structural and elastic bonding in demanding industrial applications.

Applications:

- ✓ Elastic bonding of panels, profiles, and other elements on most common substrates (metal, wood, ceramic, chipboard, etc.).
- ✓ Panel fixing, HPL/ACP bonding, mirror installation, facade stone cladding, and other interior applications.

Properties:

Fast Cure

High Tack

Available Color:

White

Packaging:

Available in standard 600ml sausage

BOSS 813+

Fire Grade Foam

BOSS 813+ Fire Retardant foam is a one-component, self-expanding, ready to use PU-foam, which contains HCFC-free and CFC-free Propellant which are not harmful for the ozone layer. The product has fire-retardant characteristics, according to the European standard EN 1366-4.

Applications:

- ✓ Installation of fireproof doors and windows.
- ✓ Sealing of fire-retardant joints and other construction joints.
- ✓ Sealing gaps in electric installations.

Properties:

Fire Retardant up to EI 240

Acoustic Insulation

High Yield

Available Color:

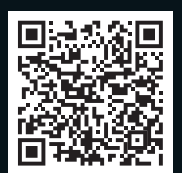

Pink

Packaging:

Available in 750ml aerosol can
